

Switch2it STOP-IT

Switch2it's Anti Spam and Virus Service STOP-IT helps you eliminate the volume of spam emails passed around the internet daily. Take every employee in your business deleting spam emails every day and you soon realise the cost is to your business.

Spam is constantly changing. By paying a small monthly fee per user per month you can recoup that cost rapidly as your employees regain the lost time dealing with spam.

With a 100% guarantee against viruses and a minimum of 3 market leading virus scanners you can be assured of one of the most effective virus and spam filters in the world.

Not only does the service stop unwanted spam emails, but it also stops virus emails therefore adding an additional layer of protection to your business from these threats.

Other features include:

Email filtering before entering the company network therefore freeing up your bandwidth to the internet for the important traffic.

Email Archiving for compliance.

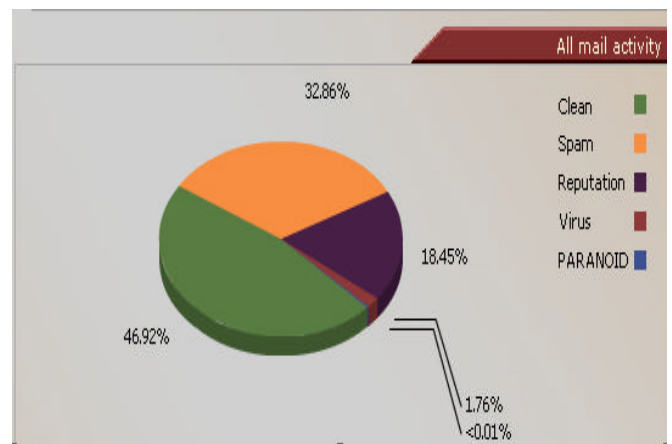

Email storage in the event of a disaster with your email server.

Spend your life deleting SPAM?

2006 Statistics
